

# b.Brilliant

## Welcome to b.Brilliant

Join Alex as she and her fellow makers explore the world by creating with new technology, interviews with experts to help solve problems, and uncovering the mysteries of "BB", a mischievous lab A.I. that seemingly likes to help, but also likes to cause some problems for b.Brilliant's teacher: Mr.Lingley.

## b.Brilliant, Ep.8: Activity 1 Homemade Green Screen

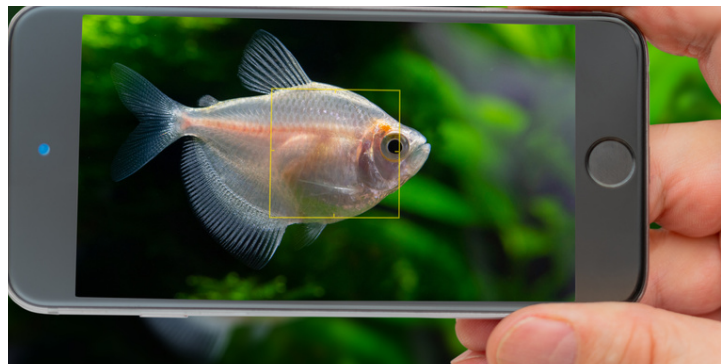

In this activity, we will learn how to make our own green screen from home. This can be used for school projects or to just have fun. We will discover that with a little creativity anything can be made into a green screen.

**Timeframe:** 30 min

**Materials:** Blanket  
Green Screen by Do Ink app  
Video of choice  
Tablet  
Computer  
Smartphone

### Instructions:

- Anything can be used to make a green screen, an example is a blanket
- Go to app store. Search "green screen " The app is called Green Screen by Do Ink. To create a new project, tap the plus sign. Add the video you will be using. Then, insert the camera. You can do all kinds of things with green screens go ahead give it a try.

## Did you know?

Green screens need to be a solid background, there can't be any light coming in from anywhere around it. Green screens are often made of two things cloth or paper and need to be wrinkle free.
