# Virtual Competition

BRILLIANT LABS LABOS CRÉATIFS

A global competition that inspires students to develop innovative solutions to solve ocean challenges

## 3 Categories to choose from:

### Marine Renewable Energy

Teams will conceptualize a power generator that is environmentally friendly

### Marine Autonomous Systems

Teams will create a system that helps explore the depths of the oceans

### Healthy Marine Life

Teams will develop a solution that improves the quality of the ocean water

## Who can participate?

Teams of 2 to 5 students aged 12 to 18 years. Each team needs to be accompanied by 2 adult advisors, preferably a teacher or a parent, who will guide the team throughout the months preceding the competition date.

## How can you participate?

1. Form a team
2. Choose a category
3. Register your team using the registration [link](#)
4. Once registered, you will be provided with all the resources needed to start your mission

## What are you expected to do?

You will be sailing to the following timelines:

- Project proposal to be submitted by **November 3rd**
- Project logbook to be submitted by **December 9th**
- Presentation, prototype, and business plan to be presented on the competition day, **December 16th**

## Have questions?

Reach out at [blue@brilliantlabs.ca](mailto:blue@brilliantlabs.ca)

## Why Participate?

- Learn about the **boundless** opportunities and careers in the blue economy
- Develop and apply **STEM** skills to solve real-world problems while making an impact on the oceans
- Connect with and learn from industry **experts**

Do you have a team of 2-5 students aged 12 to 18 years who are passionate about the oceans? We encourage you to learn more about and register to participate in the inaugural [Brilliant Blue Competition!](#)
