

BUCKET MAGIC SEAT TABLE & MORE

LET'S MAKE A BUCKET INTO...

Where to find a bucket

Your local restaurants, markets, cafeterias receive food products in buckets that they throw away afterward. These buckets with lids are surprisingly strong.

Bucket Seat

Your bucket is the perfect portable seat. If it doesn't have a lid, just flip it over. Be creative! Paint your new bucket seat any colour you want. You can also wrap it with rope and create a decorative seat that could be used as bulletin board!

It's a table!

Buckets are magic for outdoor learning. Use it as a table as is or find something flat and put it on top to give you more space to write, create, and make your next project.

It's a backpack & whiteboard!

Buckets can be useful to share ideas. Use a whiteboard marker and write all over your bucket. Erase and start over as many times as you like. When the day is done, your bucket can carry all that you have worked on home again. You will have to agree. Buckets are amazing!
